
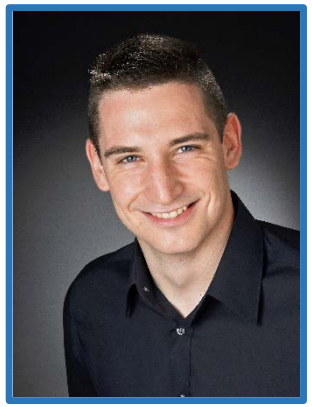
MOI III
MOLEKÜLE DER INFEKTION
MANCHOT GRADUIERTENSCHULE



Steffen Schindler

PhD student at:
Institute of Pharmaceutical Biology and Biotechnology

Project title:
Functional characterisation of small non-coding RNAs of *Mycobacterium tuberculosis*

Main supervisor:
Prof. Dr. Rainer Kalscheuer

Second supervisor:
Prof. Dr. Karl-Erich Jaeger

Nationality:
German

Educational background:
- B.Sc. Biology (Heinrich-Heine-University)
- M.Sc. Biology, major microbiology and biotechnology (Heinrich-Heine-University)

Advantages of being an MOI III fellow:
- Being part of a interdisciplinary network
- Getting deeper insights into different fields of infection biology

Research and work experience:
- Institute of Functional Genome Research of Microorganisms, Heinrich-Heine-University, Germany, Feb 2014 – Jul 2014
- Institute of Molecular Enzyme Technology (IMET), Heinrich-Heine-University, Germany, Oct 2015 – Feb 2016

Personal interests / motto:
- Sports
- "If you want to go fast, go alone. If you want to go far, go together"
